

REMARKS

Applicants wish to thank Examiner Schnizer for the significant time and energy he put into this case on or about October 29, 2004 to assist Applicants in determining that the latest Sequence Listing supplied in the case was fully acceptable and that no new Sequence Listing is needed. To remind the Examiner, this was the case where the sequence listing used "n" for "i" at the appropriate positions in Sequences 7 and 8, and then defined those positions in the identifier section <223> that "n" means "i". The Examiner made several calls to others within the PTO to confirm this was appropriate, and Applicants thank the Examiner for his efforts in that regard.

As requested by the Office Action, Applicants have amended pages 10, 13, and 14 to insert the Sequence ID Nos. where appropriate.

Applicants believe the case is in condition for allowance, but if there are any remaining items, the Examiner is cordially invited to telephone the undersigned to resolve them.

Respectfully submitted,

By Raymond J. Harmuth
